

St. John Paul II Collegiate – *NUT & PEANUT / SHELL FISH AWARENESS*

We have students with severe allergies to nuts and peanuts and shell fish. We will endeavor to ensure that nut or peanut products are not served through the school's Cafeteria Services or used in the Foods Classes and beginning this school year, John Paul II Collegiate additionally requests the assistance and cooperation of staff, students and parents by asking you to please refrain from bringing into the School, peanuts and nuts, or items/products containing peanuts and nuts and shell fish.

We realize that it is impossible to guarantee an allergen free environment, but it is our hope that if we can raise awareness of the issue and receive the cooperation of all parties to this policy, the likelihood of an allergic reaction occurring or someone becoming ill can be significantly reduced.
